6) WHY AT RONCADOR?

The Serra do Roncador region has special geological features (it was once the seabed), which not only provide more stability and protection against future earthquakes but also has a special energy favorable to spiritual practices. In addition, the Mystic and Ecological Sanctuary of Roncador is a Portal that strongly concentrates this energy and is especially blessed by the Masters of the Loía Branca. In particular, the energy of the place and especially the energy concentrated in the Sanctuary function as potent natural accelerators of the transmutation of sexual energy and manifestations resulting from the practices of the 31 Câmara in the quest for self-transformation mentioned above.

7) WHY IS THIS MOVEMENT IMPORTANT AND TIMELY?

We are at the end of sidereal cycles that usually coincide with crises on our planet both at the physical (geological and atmospheric) level and at the psychological level of humanity in it. At such times, sincere seekers are always helped by the Masters to cross this difficult passage to the beginning of the next cycle. Therefore the Roncador, with all its splendor, for the special place that it is and with its esoteric MMIR movement, was without doubt designated by the Cosmic Engagement to be the anchorage of the seekers of pure and noble heart.

MMIR:

MYSTIC AND INITIATIC MOVEMENT OF THE RONCADOR

THE GNOSE AT RONCADOR
(FROM ATLANTIDA, EGYPT, MACHU PICCHU TO RONCADOR)

MMIR: MYSTIC AND INITIATIC MOVEMENT OF THE RONCADOR

1) WHAT IS THE MYSTIC AND INITIATIC MOVEMENT OF THE RONCADOR (MMIR)?

The MMIR (or just «The Roncador») is a movement that announces a new golden era, with better days for the world, and that is preparing sincere seekers for the arrival of this new era characterized by men and women with more knowledge, more power and higher state of consciousness. MMIR reveals the Roncador region is the right cradle for the beginning of this new breed. The movement has its focal point in the Mystic and Ecological Sanctuary of Roncador, in which the whole process develops itself. It has its headquarters in Barra do Garças, in the Roncador Foundation, which serves as a Holistic Space for the community, independent of creeds or religions, and also houses preparatory schools scattered throughout Brazil (EIRs).

2) WHAT DO INITIATIC SCHOOLS OF THE RONCADOR (EIRs) DISSEMINATE?

RIRs, as Gnostic schools, provide keys to self-transformation or inner self-realization, that is, of the Divinity that dwells in us. They prepare the seekers so that they can participate in the inner levels of the Roncador. As typical initiatory schools, EIRs are organized into 3 levels or chambers where knowledge is passed, respectively, in an exoteric form (1st Chamber), mesoteric form (2nd Chamber) and esoteric form (3rd Chamber). The 3rd chamber is developed at Roncador as a continuation of the EIRs work. In

the 1st Chamber, which is public, the seeker studies the basic Gnostic doctrine. Then, when they demonstrate acceptance and willingness to follow the precepts of Gnose themselves, they then are consecrated in the Second Chamber for internal work and rituals in Gnostic Temples. Finally, after a lot of internal work, the seeker can be called to participate in the 3rd Chamber (only at the Roncador) where they can then have access to more advanced practices and knowledge aimed at their total transformation and thus entering in higher dimensions. At these inner levels, the goal is the restoration of the magical powers of Man and Woman, lost with the degeneration of the human race, which resulted in the severing of our bond with the divine. From this «fall» we live as weak, unhappy and unconscious beings, basically restricted to the third dimension. With the restoration of the «Missing Link», we can once again enter the higher dimensions and participate in the future race.

3) WHAT IS THE IMPORTANCE OF THE SACRED FEMININE FOR THE MMIR?

The treatment lacking wisdom given to the erotic impulse and the mistaken view of the role of woman in the process of spiritual ascension come from remote times. The Gnose at the Roncador is committed to rescuing the Sacred Feminine, giving conditions for the woman to return to exercise her sacred Priestess status.

The art of Alchemy can only flourish when the vestal within each woman blossoms her tenderness that enchants and ignites the wonderful fire of love.

4) WHAT IS GNOSE?

Gnose (Gnosis), which means «superior, inner, spiritual, and initiatic knowledge,» teaches us that our present state is almost completely unconscious due to the lack of the «Missing Link.» We are ruled by our egos, psychological aggregates that block our consciousness. Pride, jealousy, greed, anger, laziness, lust, and gluttony make us weak and unhappy for they deplete our energies, leaving us almost nothing for conscious and edifying works targeted at the Great Work of the Father. Our present vehicles of expression have low vibratory frequencies, being inadequate to manifest our divine side. The refinement work necessary for the expression of our Being is sabotaged by our egos, and requires a huge effort from our conscious part. Therefore, the Initiatic Schools in Roncador disseminate the Synthesis of Universal Gnose, which basically consists of three items: I) the alchemical work with the creative energies, II) self-psychoanalysis aiming to eliminate the egoic obstacles and III) the conscious help to humanity.

5) WHY ARE THE INITIATIC SCHOOLS OF RONCADOR GNOSTIC?

The self-transformation disseminated by EIRs corresponds to the creation of internal bodies or vehicles for the expression of our Divinity in different dimensions. We know the creation of bodies only occurs through creative energy, that is, sexual energy. Therefore we must learn how to use our sexual energy at different vibrational levels to create these vehicles or subtler bodies for the expression of our Being. Only schools that follow Gnosis pass on the basic knowledge necessary to delve into the mystery of Roncador.
